SVDP Families-

Its that time of year again! The time where we as a school community get to support a great organization, **The American Heart Association**. Monday Feb 3rd is our kick off to the **Kids Heart Challenge**. We as a school will be doing several fun things throughout the challenge period. Attached is directions on how to register for our school app. On the app you can learn how to collect donations, check on our school progress, learn about and complete **Finn’s Mission**, along with so much more. There are many incentives for raising funds for this great organization but our main goal is to work on **building a community of life savers**. All while having a lot of fun. We will be doing weekly activities in Gym class and at recesses. There will be a School wide “Change Challenge” where student can bring in spare change and vote for a teacher to “WIN” a silly activity just for them. Also, new this year, the top 3 students who raise the most donations will have their names placed on the **Kids Heart banner** that hangs in the gym for years to come. The very top donations earned student will get to have the SVDP Gym named after them! With a formal ribbon cutting ceremony and a plaque to be hung in the gym for the next year! So, first things first, please follow the directions provided to register on the app. and get started collecting donations. Our school goal is to raise \$3,000! Please help us blow that out of the water and lets get a new name for our gym.... Wouldn’t it be great for it to be named after you?

Looking forward to seeing the impact our SVDP family can have,

Mrs. Stublaski

LET THE GAMES BEGIN!

STEP 1:

Step 1: Register Today!
Download the AHA Schools app, scan the QR code or visit heart.org/Schools to get started!

STEP 2:

Step 2: Complete Finn's Mission!
Join the movement to create communities of lifesavers across the nation by completing Finn's Mission and learning Hands-Only CPR!

By participating in Kids Heart Challenge your student will collect donations to help other kids with special hearts while having fun and learning how to keep their own hearts, bodies and brains healthy.

Kora
Grade 4

Kora's mom, Shelly, was teaching in her classroom when she had a sudden cardiac arrest. Luckily, the school emergency team performed CPR and had access to AED machines which helped save her life and make a full recovery. Kora hopes everyone will learn CPR and be ready to save a life, like her mom's.

TIPS!

Registering Multiple Students? Create an account for each student with the same parent email but different usernames.

Scan checks to instantly see your online total update with our AHA Schools app.

Have a Matching gift? Send your matching gift confirmation (email/photo/screen grab) to matchinggifts@heart.org.

Join the American Heart Association in saving lives and advancing health and hope for everyone, everywhere.
